

I think that you should not allow companies that I have done previous business with to contact me. The Indiana legislation does not allow this and I am disappointed that federal legislation would even consider this. Prior to enacting the Indiana legislation, I would receive 15 - 20 calls a week. Currently I receive 1 - 2 per week. The Indiana legislation has had a direct, positive influence on my personal life and I will be disappointed if your proposed legislation allows additional calls. The Indiana legislation is inordinately successful and your proposed legislation would be much more effective if you patterned it after it. The Indiana legislation improved my quality of life and I will be disappointed if you pass the proposed legislation.
